

DRUMRODE

P R E S S I N G P R O F E S S I O N A L S

PRESS LINE

Our 500 ton online press, processes steel coil straight into components for drum industries. The advantage of this press line is that it produces blanks straight from coil and the design and nesting of components can save waste thus reducing costs. Our press line can handle 1500mm wide coil with a pressing depth of 1600mm with a thickness range from 0.3mm to 4.00mm.
